1. Applicant's communication filed with certificate of mailing dated 4/28/03 has been carefully reviewed by the Examiner. Amendments made to claims made some claims allowable however, claims 19 and 20 are still rejected for the reasons set forth below. Claims 1-3, 5-11, 13-18 and 21-24, 26 and 27 are allowed. This action is made **final**.

Claim Rejections - 35 USC § 103

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 19 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Brown et al (U.S. Patent 5,365,657).

For the rejections, please refer to the rejections stated in the previous office action mailed 1/27/03.

Conclusion

3. Applicant has amended claims 19 without concurring in the Examiner's rejection. However, applicant did not provided any argument. The amendment made to claim 19 appears to be basically same as claim 19 before the amendment. Please note that the recited limitation "a pressure groove is formed with a radius of curvature larger than the radius of curvature at which said optical fiber breaks" is an intended use because the radius of curvature of the groove would change depending on the optical fiber thickness.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
